About Us.

Uchit Technology Pvt. Ltd. is a forward-thinking technology company at the forefront of fire safety, automation, and AI-driven analytics. Established with a clear mission to make lives safer, smarter, and more efficient, Uchit has become a trusted name in India for comprehensive fire protection solutions, fire safety audits, design consultancy, and intelligent automation systems.

As a recognized Startup India company and MSME certified enterprise, we are among the few Indian companies developing AI/ML-based custom video analytics systems for modern transportation and vehicle management environments. Our work spans transportation networks, industries, institutions, homes, and commercial spaces across India, while we continue expanding globally with innovative AI-driven solutions tailored for the future of smart mobility environments.

OUR AI SOLUTIONS

Number Plate Detection

AI-powered Automatic Number Plate Recognition (ANPR) system that detects and reads vehicle license plates in real time with high accuracy. Enables seamless entry management, vehicle tracking, security monitoring, and automated record keeping.

Vehicle Count & Classification

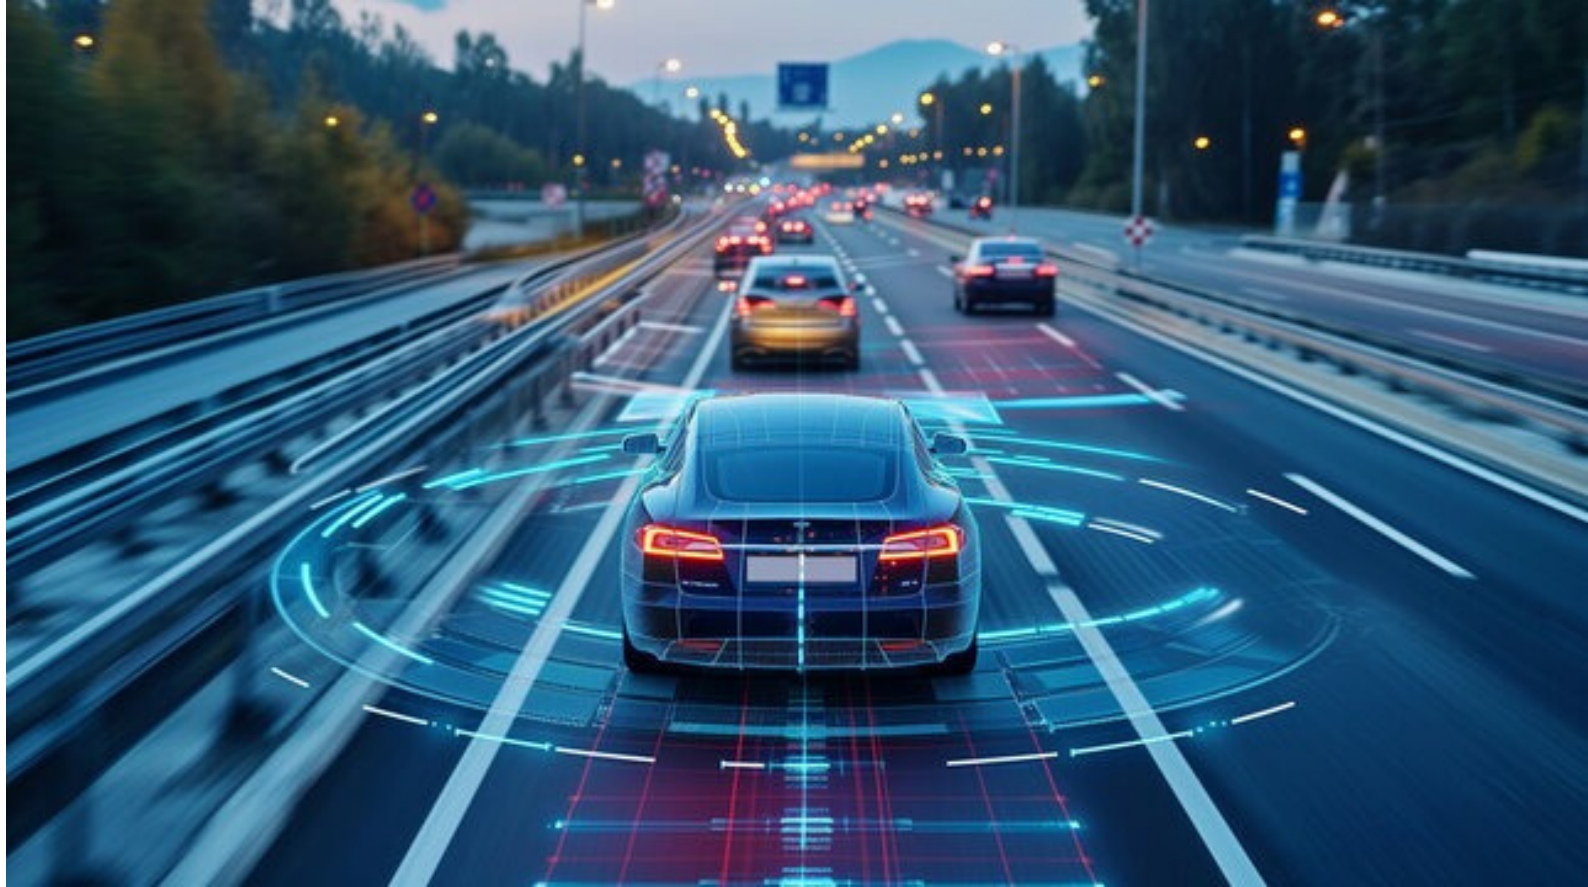

Smart traffic analytics system that detects, counts, and classifies vehicles such as cars, trucks, buses, and two-wheelers in real time. Helps optimize traffic flow, generate actionable insights, and support smarter infrastructure planning.

Illegal Parking Detection

AI-based parking enforcement system that identifies unauthorized or illegally parked vehicles in restricted zones, no-parking areas, and emergency access lanes. Sends instant alerts to improve traffic discipline, safety, and space management.

Our Philosophy.

At Uchit Technology, we believe that safety is a fundamental right not a luxury reserved for a few. Our philosophy is grounded in the conviction that advanced, reliable, and compliant safety solutions must be accessible to every home, business, and institution regardless of scale or budget.

We operate with unwavering integrity, placing the well-being of our clients, their communities, and our own team above all else. Every project we undertake is guided by a deep commitment to quality, compliance, and long-term reliability because when it comes to fire and safety, there is no margin for error.
